STAFF

One of our greatest strengths are our Instructors. Our Hockey School draws from an extensive list of experienced, high energy and enthusiastic group of instructors. Our staff have very effective interpersonal skills to relate well with the players on and off the ice. They are all players and/or coaches from Minor Hockey, Junior, College & University. We have had a number of NHL players who have made guest appearances over the past years. Our Powerskating instructor adds a very important component to our Hockey School Program. Our instructors are directed and coached by Ron Chyzowski who is the Program Director for the Hockey School. He has played and is presently coaching in Germany.

CANADIAN TRINITY HOCKEY SCHOOL PROGRAM:

The intention of our Hockey School Program is to combine the basic skills of hockey and power skating with discipline, concentration and effort in an enjoyable and learning atmosphere. We have programs for all male and female players - forwards, defense or goalies, from beginners to experienced. Players are grouped by age, ability and size. The individual player is challenged to improve his/her own skill development during each of the drills. Each week every group ends his/her last session with a scrimmage followed by an assembly of parents and players for a summary of the week's program, distribution of report cards and draws from sponsor donated prizes. In addition to our excellent Hockey Program, we also offer the services of Player consulting and Player Development. Contact our office for more information.

PROGRAM FEATURES:

ON ICE PROGRAM:

Skating is the most important individual skill in Hockey. Power skating will be a daily component directed by a professional skating instructor. In addition each day, one of the following skills will be emphasized: stickhandling, passing, receiving, shooting, scoring and checking (over 10 year olds only). Team and positional strategies will be introduced.

GOALTENDERS PROGRAM:

Goalie receives separate instruction for part of some sessions by a Goalie coach in angles, stance, skate saves, glove saves, pad stacks, positional play, etc. Goalies are integrated with the skaters. Goalie program is for 9 year olds and up. For more details, contact the office.

OFF ICE PROGRAM:

We strive to develop team concept and eye-hand coordination through activities such as dry land training, flexibility drills and games related to all hockey skills. Each group has one off ice session per day. All locations will make use of the indoor and outdoors facilities as available. Many of the activities are such that the player can use for his year round fitness program. We usually throw in some fun activities as well!

CLASSROOM PROGRAM:

During the daily classroom session, the instructor uses a variety of teaching techniques to show players the expected procedures for effective skill progression. Most up to date instructional video tapes, chalk talk and demonstrations are tools used to assist in this area.
